

# PARISH COUNCIL PRECEPT

## INCREASE 2021-22 EXPLAINED

You may have noticed that there has been a precept increase of 1% this year and wondered why as the Parish Council announced it would keep its precept requirement at £115,518.00, (the same as the last financial year).

*So why has your Council Tax PC element increased?*

Stilton now only has 768 properties that will pay full council tax at Band D in 2021/22 instead of 776 Band D properties in 2020/21 and this is probably because more households are claiming Council Tax Support (due to Covid-19's unfortunate affect on some household incomes).

**The Parish Council has received the same precept this year as last year.**

The precept element on a Band D property was £148.86 in 2020/21 but is £150.41 for 2021/22 and explains the 1% increase.
